

# TOUCHLESS HANDWASHING SOLUTIONS

Avoid germs, soap and paper towel waste and eliminate water splashing on users or dripping across floors with Bradley's Touchless Handwashing Solutions.

Commercial Washrooms. Brought to Life.

## Touch-free Handwashing Solutions

### Intense Spotlight on Hand Hygiene

Health officials are unequivocal about the importance of hand hygiene to reduce the spread of disease-causing microorganisms like COVID-19. Americans have heard this message loud and clear and are washing their hands more than ever right now. Nearly 80% say they wash their hands more frequently, more thoroughly or longer in response to a flu outbreak.

Including touch-free handwashing products in your commercial washroom design is important to users. Making everything touchless in the restroom is the top improvement Americans want, aside from keeping restrooms cleaner and better stocked.

## Attractive Hands-free Handwashing Options

Bradley's award-winning all-in-one WashBar® with completely touch-free soap, water and dryer activation is a sleek and elegant handwashing solution. The WashBar works together with the Verge® basin to keep water contained and not on the floor.

New Verge™ matching soap and faucet pairs create harmony in the washroom with coordinated touch-free styling. With an impressive line-up of four touch-free styles and six finishes for an industry-leading twenty-four options to choose from, they work beautifully with all Verge handwashing systems or with any basin you choose.

# All-in-One, Touch-free WashBar

From the inventor of all-in-one sink systems comes the WashBar. Providing a completely touchless handwashing experience, the WashBar houses soap, water and dryer in one intuitive and attractive unit. Thoughtfully designed to streamline the handwashing process, the WashBar transforms the washroom to a modern wash space free of clutter. This is the apex of commercial design brought to life.

Convenient handwashing. End soap and paper towel waste. Eliminate water splashing on users or dripping across the floor. Performance transformed.

## BUILT-IN SMART TECHNOLOGY

All the fundamentals of handwashing have been designed into our cutting-edge WashBar with care. The single piece, multifunction, chrome plated fixture provides convenience and safety by keeping water off the floor. Easy-to-identify icons orient and guide the user and LED lights change from blue to green when a function is activated. The clean, rinse, and dry functions operate independently and will not accidentally activate their neighboring function. The WashBar transforms the handwashing experience.

### ALL-IN-ONE WASHBAR

### NEW WASHBAR DUO

## WASHBAR FEATURES

### CLEAN

- **Touch-free activation**
- Low level LED indicator
- Gallon (3.8 L) soap capacity
- Simply replace soap tank – no cleaning or refilling
- Liquid and foam soap

# Touch-free Verge™ Matching Soap & Faucets

Create washroom harmony with the new line of Verge coordinating soap dispenser and faucet sets. Never again sacrifice style with mismatched soap and faucets. Designed to complement the sophisticated Verge® handwashing basins, the new soap and faucet pairs work beautifully with any basin to provide the finishing touch-free touch to your commercial restroom designs.

Advanced sensor technology eliminates false activations and optimizes power consumption, longer spouts create increased handwashing space and brass cast spout construction delivers durability with stylish and environmentally friendly PVD finishes.

## TOUCH-FREE VERGE SOAP DISPENSERS

- Industry leading breadth of top-fill options with high capacity tanks that require fewer refills
- Feature a smart sense system with LED light indicators that let maintenance staff know when soap and battery levels are low
- Audible and visual alerts aid the refill process to prevent overflowing and spillage
- Additional vent tube in the shank prevents air blockage allowing for easier refill
- Utilize universal bulk soap in foam and liquid options
- Hidden sensors, nozzles and anti-rotation gasket prevent vandalism
- Sensing optimized to eliminate false activations and maximize battery life

## TOUCH-FREE VERGE FAUCETS

- Feature patented dual sensor technology to provide the most accurate activation while optimizing battery life
- Touch-free 0.35 gpm (1.3 L-Min) or 0.5 gpm (1.9 L-Min) options for water savings and multiple run times can be selected to fit your application
- Auto flush feature flushes out the water line every 24-hours: manual valve over ride feature for longer flushing requirements useful in applications such as healthcare
- Solid brass construction delivers years of durable and reliable service
- Hidden sensors, nozzles and aerators prevent vandalism while enhancing the sleek modern styling
- Longer spouts give hands more space for a better handwashing experience
- AC power with optional battery back up
